Help Wanted

5. During the last year, I was involved in the following Tabligh-related activities (you can select multiple options).

## **Promised Messiah said:**

*“In the same way we believe that the sun will rise from the west. However, I have been shown in a dream that the meaning of the sun rising from the west is that the western countries which have been under darkness of disbelief and have lost their direction will be lightened with sun of the truth and they will get their share of Islam. I saw that I am in London city, where I am standing on a podium and I am making a speech in the English language giving strong arguments to establish the truth of Islam. After this, I caught many birds which were sitting on small tress. These birds were white in colour and their bodies were equal to the size of a partridge. So I interpreted in this way that perhaps not me, but my writing will spread in those people and many of the righteous English people will accept the truth of Islam. (Izala e Auham, Roohani Khazain Vol.3 page 376-377)*
